Very kind teacher with lot of knowledge

Liked the way she explain and interact with students. She really has a calm voice..

Satisfactory teaching, research articles and other relevant material shared alongwith videos for better understanding.

The questions you gave weekly to everyone to write was really a great idea... we could revise them once again this way... but yes in the end classes we didn't read all the questions. But overall it was a good initiative in these online classes... thankyou mam for your efforts!
