Suggestions/ comments, if any

4 responses

Result of tests declares very late.

Quite different way of setting paper which is actually beneficial, fun and challenging enough in online mode. Focusses more on practical aspects of the subject to prepare & encourage students for real life research or industry jobs.

One of my favourite teacher she puts very good efforts in teaching and also she make us do interesting activities which boost our learning skills and built confidence level.
Thank you mam

Expected a lot more this semester but didn't got that much. Practical experiment on fermentation and the variations you added were awesome but we did only one practical, wanted to perform more experiments u told like of GFP in drosophila. Industrial visit is due till. Topics we had in syllabus if properly covered with numericals would have been very much helpful to us for GATE.
