Suggestions/ comments, if any

10 responses

She is very kind and good teacher

The teaching method was good and understandable.
some topic or practical related videos in ppt should be included

Genuinely One of the Best teacher that I came across till now. All of her qualities including teaching style, knowlege, interactive and humble nature makes her an ideal person. I'm glad to have her as my teacher and hope she continues to guide n enlighten many such minds as me.

Over all , Anjana ma'am teaches in such a way that,the harder topics actually turns into easier, I had learned so much from you ma'am., Ma'am 's communication towards the Students were also so Frank and good enough...

Anjana mam teaching is really understanding the only problem i faced is lack of laboratory classes

Ma'am is best in her field

No

No

no

Practical knowledge is very important , it matters more than theoretical knowledge. The more we do things practically , the more efficient we become in this field , so i hope we get more practical exposure this sem and all the practicals given in the syllabus are done this semester in real. Real life exposure to practical things like what happens in research and interaction about everything is important.
