

STUDENT'S FEEDBACK ON CURRICULUM

M.Sc. Bioinformatics II SEM, May' 2024

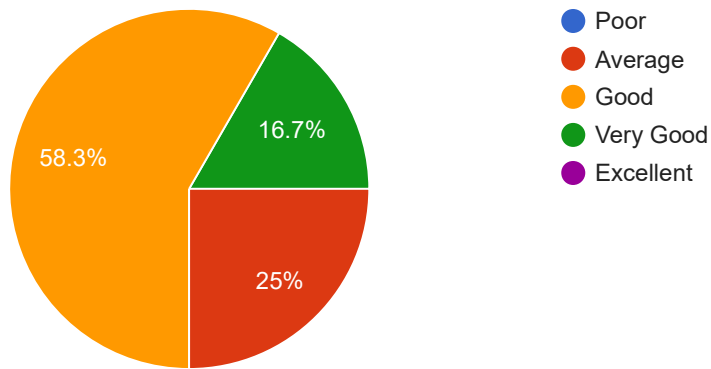

12 responses

[Publish analytics](#)

The syllabus is quite appropriate.

 Copy

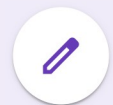

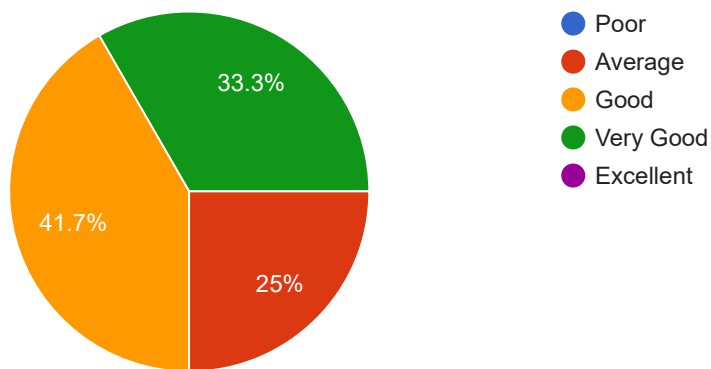

12 responses

The allocation of the credits to the course is inappropriate in relation to the level of course work

 Copy

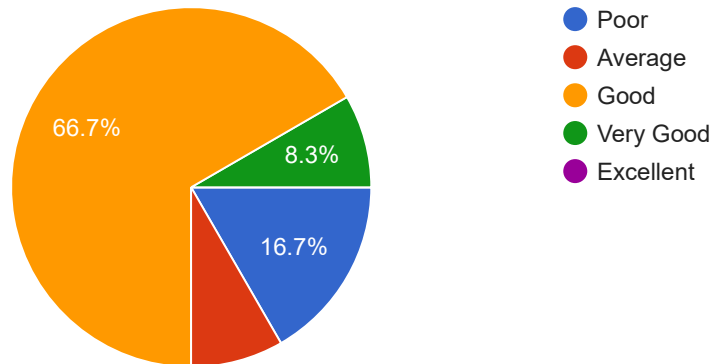

12 responses

The depth of the course content is adequate in relation to the expected Course Outcomes (COs).

 Copy

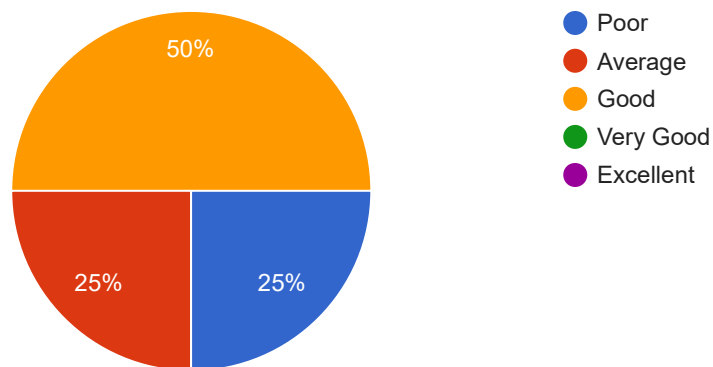

12 responses

Almost entire syllabus was covered in the class by the teacher.

 Copy

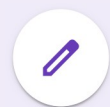

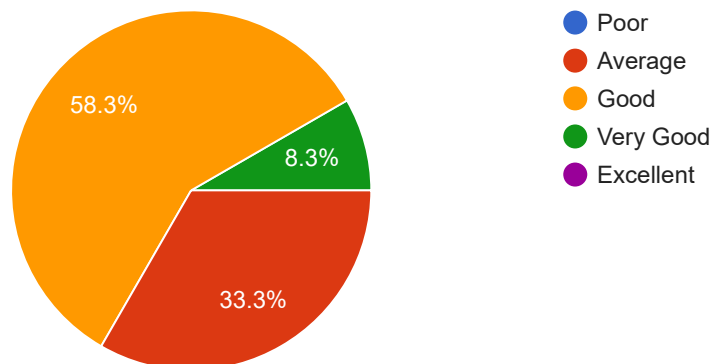

12 responses

The units/sections in the syllabus are properly sequenced.

 Copy

Suggestions/ comments, if any

1 response

Teacher's should focus more on the trending industry level bioinformatics softwares being used. Which is heavily lacked in the department due to no *Permanent bioinformatics faculty/Personnel* for an improved guidance. Which is the most important thing needed .

The computer labs are also not well managed. No cleanliness is maintained at regular basis.

Each individual (student) should be allotted one computer cause the system is their lab ! It contains their precious data and softwares installed according to their needs.

No-one should be allowed to change the places of PC systems.

There are no workshop's for bioinformatics speciality arranged till now
