Suggestions/ comments, if any

3 responses

There should be lots of improvement made in practicals as all the students doesn't get chance to perform in the practical even more most of them are not able to see what's going in the practical. And some of the instruments are not working and lab should be properly managed and daily practical should be conducted and all the practical written in syllabus should be covered

Practical should be conducted properly.

Semester teach me lot of new things
