

Webinar Report

A WEBINAR on “**Importance of Interview techniques for the freshers and resume writing**” was organised by School of Biotechnology, DAVV, Indore in association with CLINI INDIA, Pune, on 19th Sep. 2022, Monday, 2.30PM-3.30 PM. The webinar was attended by 100 students from all biological science departments of DAVV including school of Biotechnology, School of Life Science, School of Biochemistry.

The program started with a welcome address by Dr. Anjana Jajoo, Head, School of Biotechnology, DAVV. It was followed by brief introduction about the webinar by Ms. Prutha from CLINI INDIA. The speaker for the webinar was Mr. Nikita J. Singh, from Clini India. She guided the students to first identify their area of interest for job in corporate, research, academics etc. She advised to get prior information about the employer, their requirements, match your profile, etc. She gave examples of some tricky questions asked during interviews, how to introduce yourself in an impressive manner, how to do salary negotiation, etc.

She further told about how to write a resume which can attract the employer, what are necessary components of a resume etc. Before applying anywhere, you should ask yourself a few questions as why you find yourself suitable for this job, what are your strengths and weaknesses etc.

She emphasized on acquiring additional skills alongside the degree programme so that be the end of studies, you are well prepared to give interviews also. Many online and offline courses are available for skill enhancement many of which are free also.

The Webinar was very well taken by the students. It ended with a vote of thanks by Ms. Prutha.
