

An Interactive session of students with external expert Dr. Sushil Nehra was organised on 12th July 2023. Dr. Nehra is working as Asst. professor in department of Bioscience and Bioengineering at IIT, Mumbai. His research area are: Cancer Biology, Cell signaling, Cancer Biomarkers. His high impact research includes publications in journals like science, Nature communications, Oncogene etc.

He interacted with the students by telling his journey from a small town of Rajasthan to IISER, Bhopal and further to University of Pennsylvania. He motivated the students and asked them to continuously work hard towards their goal.

He also guided the students giving information about various career opportunities in academics, research etc. He told the students to contact him directly in case they need any kind of help while applying for various Ph.D positions , fellowships etc.

Students were very enthusiastic to talk to him and opened up with him talking on various aspects. The program was attended by III semester students of M.Sc Biotechnology, M.Sc Genetic Engineering and M.Sc Bioinformatics.
